

PROBLEM OF THE MONTH

AN OPTOELECTRONICS BRAINSTORMING OPEN TO ALL YOUNG RESEARCHERS

In this column we will be presenting problems in optoelectronics open for solution to all LEOS members. Starting from now, the periodicity is bimonthly.

Solutions will be reviewed anonymously by a Board of 3 CEC Members of the LEOS Italian Chapter. The best entry will receive a \$150 honorarium and a certificate.

Note: also members of others LEOS Chapters can submit, but if winners they will not receive the money honorarium, just the certificate (for fiscal reasons).

Board decisions are final.

Submit your solution to the problem No.4 below within 31 December, 2001, including:

- text of solution (max 500 words)
- your name, address, e-mail and/or fax,
- years from graduation and present position
- your IEEE membership number
- signed declaration that solution is your own work and no other people has helped you.

Send by mail to the secretariat: M. Norgia, Dip. Elettronica, v.Ferrata 1, 27100 Pavia Italy.

norgia@ele.unipv.it

or fax to: M. Norgia, Univ. Pavia, +39 0382 422 583

Secretariat will process submissions in an anonymous format.

All Members can participate, but young researchers and Student Members will be preferred as winners. Submissions must be original and personal - submitters declare they have not received help from others.
